Summary of Legislation: This bill prohibits a physical therapist from performing a manipulation of the spine.

The bill allows a physical therapist to provide subsequent treatment to a patient who was previously referred to the physical therapist for the same condition if: (1) the referral was given not more than six months before the request for subsequent treatment; and (2) the physical therapist contacts the referring provider within three days.

The bill allows a physical therapist to evaluate a patient without a referral, but requires the physical therapist to contact the patient's appropriate provider and obtain a referral before providing treatment.

It specifies that a physical therapist may perform sharp debridement only on the order of a physician.

It also removes the authority that allows physical therapists to practice physical therapy upon the order or referral of a psychologist.

Effective Date: July 1, 2007.
